FOR PARENTS & GUARDIANS

What changes for your child

Hikaru kids training is age-ready and plan-led. We start with curiosity, then build real habits - so focus, confidence, and fair play show up at the board and beyond.

AT THE BOARD

Habits that transfer

Focus, patience, sportsmanship.

Piece stories, thinking ahead, and respectful competition - skills that show up in homework and everyday decisions.

FOR YOU

Progress you can see

No guessing at home.

Sessions follow a plan. We share what was practiced and what comes next, so you know how to support without hovering.
